

GEI WORKS LIQUID STORAGE DIVISION: TAILORED STORAGE SOLUTIONS FOR EVERY CHALLENGE

At GEI Works, our mission goes beyond simply providing products. We aim to deliver customized solutions that address your specific needs, challenges, and goals. Every site and project is unique, and we approach each one with the same dedication: listening to your concerns, understanding your requirements, and ensuring our solutions align perfectly with your objectives.

Our Process

- **Understanding Your Site:** Every site has unique conditions, and we work with you to understand challenges such as environmental factors, space limitations, and compliance requirements.
- **Collaborating for the Best Solution:** Whether a standard product fits or a custom design is needed, our team communicates options and ensures your concerns are addressed.

PRODUCT SOLUTIONS:

- Corrugated Steel Tanks
- Pillow Tanks
- Onion Tanks
- Frame Tanks
- Water Trailers
- Cistern Liners
- Secondary Containment (Berms, Tarps, Absorbants)
- Polyurea Spray Lining

Corrugated Steel Tanks

Custom capacity (700-500,000 gallons), for durable and reliable liquid storage.

- Rainwater harvesting
- Frac/Mining
- Potable and Non-potable water storage
- Fire Suppression

Water Trailers

Portable solution for transporting and distributing water to remote locations.

Options:

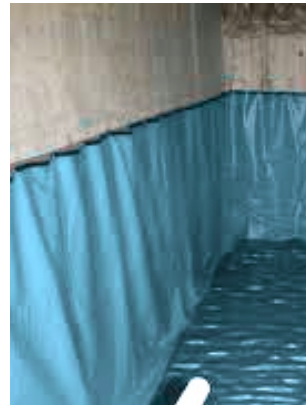

- Express 550 Gallon
- Express 800 Gallon
- Express 1,025 Gallon
- Express 1,600 Gallon

Pillow Tanks

Ideal for emergency responders, military operations, construction projects, and remote work sites requiring quick and efficient liquid storage.

- Low profile. Stores flat when empty
- Potable and Non-potable water storage
- Also known as bladder or blivet tanks
- Static use only

Cistern Liners

Flexible, membrane designed to seal the interior of new or existing cistern tanks.

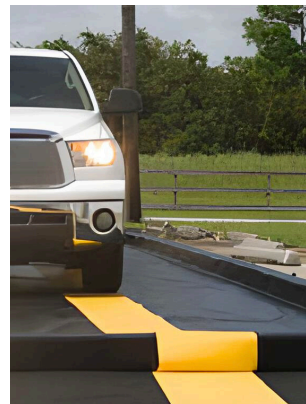

- FDA and NSF 61 Approved Fabrics
- Custom-built to customer dimensions
- Folds Flat for shipping

Onion Tanks

Self-supporting, collapsible water storage tanks designed for quick deployment and easy transport.

- Decontamination
- Temporary water storage
- Fire fighting dump tanks
- Disaster recovery
- Quick set-up

Secondary Containment

Spill control for sites handling or storing hazardous liquids, washing, draining or emptying fleet equipment.

- Basins
- Aluminum Angle berms
- Drive Thru Berms
- Foam Wall Berms
- Tarps
- Absorbent Products

Frame Tanks

Portable, rigid-frame water storage solutions designed for rapid setup, ideal for firefighting, emergency response, and temporary liquid containment.

- Fire fighting dump tanks
- Emergency water storage
- Fish farming
- Residential and Commercial uses

Polyurea Spray Lining for Tanks

Sprayed waterproofing material, ideal for water storage tanks. Can be used in place of a liner, mastic or welding tanks.

- NSF-61 Potable Water and USDA approved
- Chemical, abrasion and UV resistant
- Ecologically friendly--low VOC
