

Folding Frame Tanks

Emergency Water Storage

The CENTAUR Folding Frame Tank for emergency water storage is a dependable, portable unit that can be used to store oil, water, and other liquids in rural areas or in locations where space is limited. Often used by firefighters and first responders, these frame tanks are both rigid and flexible. CENTAUR Frame Tanks are designed to fold flat when not in use for easy storage and fast deployment.

Folding Frame Tanks

Emergency Water Storage

CENTAUR Folding Frame tanks come in one piece for fast setup, and fold flat for easy transport and storage. They are designed with an open top for convenient access, and can accommodate oil, water, and various other liquids.

They are ideal for use in:

- Fire Fighting Efforts
- Emergency Relief Water Storage
- Storage of Recovered Oil
- Leaks from Tanks and Machinery
- Aquaponics and Fish Farming
- HAZMAT Response

This flexible storage unit is both rigid and collapsible. The strong outer frame of the tank supports large volumes of liquid, while its hinged design and interior liner allows the tank to fold flat.

Advantages:

- Folded Design for Easy Transportation
- Fits in Vehicles and Fire Trucks
- Reliable Interior Liner
- Unfolds in Minutes
- Open Top for Easy Access

All CENTAUR Frame Tanks feature an outer frame and interior liner. All frames can be built with steel or aluminum and are mig welded, guaranteed. The standard liner is made of 22 oz. PVC or a heavy duty vinyl. Other fabrics may be used depending on the liquid and application the tank is used for.

The Folding Frame Tank for emergency water storage is available in several sizes and capacities to help meet your liquid storage requirements. Contact a specialist for details.

Note: A pipe thread sealant is recommended for all flexible tank fittings. This ensures there is no leakage. The sealant used should be compatible with the tank's contents. Sealant is not included.
